

Italy Holds Out in Demands For East Coast of Adriatic and Islands and Seaport of Fiume

Is There Indication of Weakening on Part of British and French Premiers and President Wilson from Stand They Have Taken That Italy's Price Is Too High

PARIS, April 22.—The Italian situation remains unchanged, owing to an authoritative announcement after the meeting of council of the day.

The Italian premier, Vittorio Orlando, while not attending the sessions of the council, had a series of private conferences and arranged a meeting with Premier Lloyd George with a view to seeking a compromise.

One compromise proposed to the Italians, making provision for recognition of their claim to Fiume, in exchange for the abandonment of their claim to the Dalmatian coast, was rejected.

THE TEMPS SAYS BOUNDARY FIXED

PARIS, April 22.—The French government has decided that the frontier between Italy and Germany, Austria, apparently Italy demanded and as France and Great Britain in 1918 promised it should run, in the north of the Brenner Pass in the Alps.

The Brenner Pass is the lowest of all the passes that traverse the main chain of the Alps. It is the shortest route between Germany, Italy and Austria.

Plan For Distribution of The Soldiers' Relief Fund

According to the suggestions submitted to the Returned Soldiers' Commission, the \$100,000 grant made by the Provincial government will be spent in the following manner:

1. To pay the administrative expenses. At the invitation of the commission, Major C. W. McManis, California, was present at the meeting of the commission on Tuesday morning to explain the details of the suggestions as submitted by his organization.

Payments Retroactive.

The payments are to be retroactive to Jan. 1, 1945, and will be paid to the different local commands of the provincial command according to the percentage of the total number of men in each separate grade, not including straight payments for services rendered by the G. W. V. A. local to the government. The total amount of the money absorbed in this main grant of \$100,000. The schedule of distribution

to all of the various sections organized at the local level. The work of the sections was prepared, but as pointed out by the speaker, the sections were not working. They had anticipated five new local units in 1935, but only one was organized. The speaker was 26 already and he expected over 100 during the year. The great number of soldiers in the army was a great responsibility for this heavy organization of local units.

Loans Limited.

The grants are to be controlled by the local committees. The speaker said that the grants which may be made to members under this arrangement are to be used for the purchase of land. An amendment was suggested by the committee that the grants should be used to pile up a surplus during any quarter that surplus might be held in reserve for the purchase of land. The speaker said that extra loans might, in the discretion of the local committee, be made in special circumstances.

Officers Needed.

The difficulty of getting dental attention for the returned men again was mentioned. The speaker said that a resolution was passed that the R.C.R. be to go to the R.C.R. and ask for a dental unit at Lethbridge and Medicine Hat and such other places as necessary for the treatment of the returned men. The speaker said that the R.C.R. was to be asked to provide dental treatment for the soldier patients.

The secretary reported that all re-education literature that had been distributed among the overseas battalions had been called in. This was necessitated by the wrong propaganda that had been circulated among the men overseas in regard to the continuation of their classes in the khaki university, the land settlement scheme, and other matters. When the men re-

The meeting of the commission was presided over by John A. McDougall, in the absence of the premier, who is still confined to the house with a cold. The other members present were F. H. Cleland, Calgary; S. J. Sheppard, Lethbridge; A. J. N. Terrill, Medicine Hat; Capt. Truman, Red Deer, Howard Stutchbury, Major McInnes of the G.W.V.A. and J. W. Mitchell were also present.

To Interview Employers.
J. W. Mitchell, of the government labor bureau, reported that in accordance with the instructions from the last meeting, two men had been appointed, one at Edmonton and one at Calgary, to interview employers of labor as to the number of men in their employ, who were naturally attracted to an agricultural life. It was too soon as yet to get any returns.

In order to more greatly facilitate the work of the office of the returned soldiers' commission, it was decided

York where it took the cash handed over and four months passed their anniversary night after night until they had a million theatregoers who had seen the "greatest musical play ever produced." It proved the biggest success of the decade.

In thirteen days it was the same—also in Boston, Philadelphia, Pittsburgh and all of the larger cities of the eastern part of Canada and the United States. It has the identical all-star cast that New York and Chicago. The producers of "Maxime" have sent the very best of the American stage and a famous company of operatic ability, and supporting them is one of the real top-notch companies headed by Carolyn Thompson, one of the most charming and talented of the younger prima donnas.

John V. Murray, the celebrated English comedian, "This city is one of only ten that have the opportunity to see this play." In this famous subject Mrs. Clark plays the part of Levey Mary, that immortal character which is familiar to every child as well as to the grown-up. Charles Ray's new play, "The Girl Dogger," a first-class picture, will be shown for the last three days of this week at the theatre.

It is the clearest entertainment from start to finish. It has the ingredients of a thoroughly fascinating school play or college drama. The adventures of Culbert Frostman, a dreamy student, who is compelled to leave the place of a lively party at a dinner to a church lady, from the theatre to a plot that involves the heart in some of the most amazing adventures of the play. He is the hero in the dreamy student, and he finally wins the other fellow girl.

EMPIRE—An eight-act feature film that presents the most moving of the great battle in Flanders in such a manner that the language of war is softened by the heartiest interest of the Empire theatre the whole of the play. The play is "The Heart of Humanity," an all-Canadian picture, and one of the best of the year. It is described by competent critics as the greatest picture of the year.

Allen Holubar, the director, has made a picture that combines motherhood and war in a splendid work done by the women to relieve suffering. The picture is a masterpiece of the kind that is distinctive for its skillful blending of the historical incidents in a modern setting. It is a picture of the "Heart of Humanity" particularly those representing the little Canadian community in the first two reels of the production.

SEEDING IN THE SOUTH

MILK RIVER, April 22.—Seedling began on April 22 and was general by the 15th. Conditions were not extremely good, far better than last year. Labor supply good.

SEEDING CONDITIONS GOOD

WINNIPEG, April 22.—Reports from the south of the province in Saskatchewan and Alberta where seedling has been started, are excellent. A few districts report a shortage of labor.

U. S. RELAXES IMPORT RULES

WASHINGTON, April 22.—The war trade board announced that it has relaxed the information of United States exports to the British Empire in relation to the British import regulations in relation to the war.

REGENT—As dangerous as the wire entanglements on "No Man's Land" at the time and meek of caprice thrown out for a millionaire philanthropist by Neph McDonald, played by Marguerite Fisher in "The Mantle of Charity." In this production of the American Film Company, the human and human appeal are indicated; the human spontaneity and the story is odd.

Photo Plays

ALLEN—Marguerite Clark, the popular little Paramount star who recently became the wife of Capt. H. Palmerston Williams, after spending her honeymoon in the most recent Paramount picture, "Mrs. Wiggs of the Cabbage Patch," which will be shown for the last time at the Allen theatre.

DREAMLAND—What strange influence molds the mind of a pretty young girl to deal in deceit, petty thievery and slander?

ALLEN—A story starring in "The City of Tears," a beautiful Bluebird production, played the role of Rose Carillo, left destitute when an opera company is notified on her return. In the same performance in Katrine Matheux.

Children's Diseases Are Not Necessary

They Add Nothing to the Well-being of the Child and Invariably Leave the System in Worse Condition Than Before They Came

In fact, they often sow the seed which, in adult life, develops into disorders of the heart and blood vessels and degenerative diseases of the kidneys.

So if children escape any child's disease they are the gainers in general health by just that much. It may be that years are added to their lives or chronic invalidism avoided. Then there is the enormous risk which every child runs who has measles, whooping cough, scarlet fever, or other diseases.

Perhaps this does not agree with your idea of letting your children have these ailments when young, with the belief that they must have them some time. This old idea has cost more thousands of lives. It is time to forget it, and to put forth an effort to save the children from these ailments.

All these children's diseases are known as germ diseases, and germs are harmless to a body strong enough to fight them.

Rich blood is the greatest of germicides. Therefore, seek to keep your children's blood rich and pure by giving them whole-

some, nourishing food, and by allowing them to exercise freely in the open air.

If they grow pale and weak and languid—if they fail to derive proper nourishment from the food they eat—if their nervous systems get run down from the tax of school work—use Dr. Chase's Nerve Food as the best means which medical science affords to enrich the blood and build up the exhausted system.

Children whose blood becomes thin and watery are helpless before an attack of measles, scarlet fever, whooping cough, or other contagious disease. They seem to "catch" everything that is going. Their resistive force is nil.

But their young bodies soon respond to the nourishing, invigorating influence of Dr. Chase's Nerve Food. As their blood is enriched they become healthy, robust and rollicking—they enjoy their food—their play—their work at school, and grow into strong, healthy men and women.

Dr. Chase's Nerve Food, 60 cents a box, 4 for \$2.50. All druggists or Edmondson Sales Co., Ltd., Toronto. On every box is the portrait and signature of Chase, M.D., the famous Receipt Book author.
